Project Location	At the Center of the village of Hrar - Akar district-North Lebanon
Project Description	My project focuses on growing most wild medicinal and edible herbs throughout the year. Many local women collect a number and a variety of edible plants every spring and autumn to support and feed their families.

	<i>I aim to work with these women by collecting and drying herbs to improve our financial position.</i>
Needs assessment	<i>Our project will not only have an impact on the living conditions of many of the women and their families. It will also positively impact the environment by encouraging sustainable harvesting and preserving the wild medicinal herbs that have been mismanaged and threatened.</i>
Project Outcomes	<i>The primary outcome of this project will be the employment of the local women who are experts in wild edible herbs and medicinal plant identification and maintaining the knowledge of wild plant picking.</i>
Project Indicators	<i>One of the aims of this project is to save the herbs and plants from random picking, and second is the improvement of the livelihood of the women. These two aims are easily measured.</i>
Project Sustainability	<i>The seasonal production will ensure a steady flow of income that will support the producers and be invested in developing and maintaining the facility.</i>
Environmental Impact	<i>This project encourages sustainable practices when it comes to wild plant cultivation, preservation, and protection. Not only will we teach others how to cultivate sustainably, but we will be also be protecting the natural yield.</i>
Equal Opportunities (Please note that not all of these questions will be relevant for all projects, in which case please type "Not applicable")	<i>This project aims to employ the young and older women of the village hence providing equal opportunities and encouraging marginalized communities.</i>
	<i>Does your project benefit people of different faiths? Yes</i>
	<i>Are people with disabilities involved in the project?</i>
	<i>Are elderly people involved in this project?</i>
